

# PROFESSIONAL DIPLOMA PROGRAM IN MUSCULOSKELETAL & SPORTS MEDICINE

**ONLINE**

The Professional Diploma program in Musculoskeletal & Sports Medicine equips medical practitioners with the skills to diagnose and manage patients with musculoskeletal conditions and sports injuries in primary care. Musculoskeletal conditions account for over 14 per cent of general practice encounters and are the third most common reason for presentation. The online certificate courses will teach you how to diagnose these conditions, identify their underlying causes, minimise risk for patients, and provide ongoing GP management to better meet patient demand.
